

Project Demo Planning

Date	15 March 2026
Team ID	XXXXXX
Project Name	Credit card approval prediction system
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Present the problem statement: challenges in manual credit card approvals	5	Team lead
2	Data preparation	Explain preprocessing, feature engineering, and dataset used	7	Data scientist
3	Model deployment	Showcase ML models (Logistic Regression, Random Forest) and evaluation metrics	8	ML engineer
4	Web application demo	Demonstrate applicant form, approval prediction, and results page	10	Frontend developer
5	Risk Analyzer & Recommendations	Show how system highlights risk factors and suggests card limits	7	Backend developer
6	Future Enhancements	Discuss admin dashboard, scalability, and deployment roadmap	5	Project manager

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain inefficiencies in manual approval and need for automation
2	Solution overview	Present architecture: frontend, backend, ML model, database
3	Live Feature Demonstration	Walk through applicant submission, prediction output, and risk analysis
4	Q&A sessions	Address queries on dataset, accuracy, deployment, and future scope
