

Project Initialization and Planning Phase

Date	04 July 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am  A customer applying for a credit card.	I'm trying to  Get my credit card approved quickly.	But  The approval process is slow and uncertain.	Because  Banks manually verify income, credit score, employment, and loan history.	Which makes me feel  Frustrated and anxious about whether my application will be approved.
---	--	---	--	---

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An eligible applicant applying for a new credit card	Get my credit card application processed and approved quickly to meet my financial needs.	The current manual screening process takes days or weeks to verify my profile and provide an approval update.	Banks still rely on traditional manual verification pipelines for checking income profiles, demographic metrics, and credit risk parameters.	Frustrated, anxious, and disappointed due to long processing waiting times and lack of instant automated feedback systems.
