

Code-Layout, Readability and Reusability

Date	04 July 2026
Team ID	SWTID-2026-7391
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code	Yes	Proper indentation followed in all Python files.
2	Proper File Structure	Files and folders are logically organized	Yes	Separate folders for dataset, model, templates, and static files.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Descriptive variable names improve readability.
4	Function / Method Names	Functions are descriptively named	Yes	Functions are named based on their purpose.
5	Code Comments	Inline and block comments explain logic	Yes	Important sections are documented with comments.
6	Modular Design	Code is split into reusable functions/modules	Yes	Separate modules for preprocessing, prediction, and model loading.
7	No Redundant Code	Duplicate or unused code is removed	Yes	Optimized code without unnecessary duplication.
8	Error Handling	Exceptions and errors are handled gracefully	Yes	Input validation and exception handling are implemented.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Data Preprocessing Module	Python, Pandas	Data Cleaning & Feature Engineering	High

2	Prediction Module	Python, Scikit-learn	Credit Card Approval Prediction	High
3	Model Loading Module	Joblib	Loads the trained ML model	High
4	Flask Application	Flask	User Interface & Backend	Medium
5	Input Validation Module	Python	User Input Verification	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-structured project with organized folders and modules.
Readability	5	Easy-to-read code with meaningful variable and function names.
Reusability	5	Modular functions can be reused in different parts of the application.
Documentation / Comments	4	Comments are added for important logic and functions.
Overall Score	4.8	The project follows good coding standards and is easy to maintain and extend.
